

**Name: Perfect Student**

**URL: <http://MyPerfectURL.com>**

<b>Point Breakdown</b>	<b>Score</b>	<b>Notes</b>
Number of Pages:		1 if there are 3 pages or more
Video requirement		1 for yes
Is the media Flexible?		1 for yes
Gallery of Images		1 for yes
Relative text (ems or %)		1 for yes
liquid layout		1 for yes
unique design		5 A judgement based on design created by the student - using a framework will incur a serious penalty as will <u>design</u> lifted from class examples
effectiveness of design	10	Is the design an appropriate one? Does it do what is expected? If it does not follow conventions, is there a specific reason? Are there good web practices in play?
lean code		5 With a hard refresh is the weight of the page light or heavy? Does it take a lot of time to download? (potentially in a slow connection how long?) Are there a lot of server requests? Has the student utilized content offloading for images or scripts?
effectiveness of code	10	what does the document outline look like? Is there a viewport meta tag has a doctype been included? Is it clean and semantic? Does the flow of elements make sense?
working form		2 Does the form get parsed by php properly? Has it been cleaned? How good is the PHP code? Potential bonus: Are there sticky fields for usability?
form validation (php/js/html5)		2 The form must have at least one form of validation, JS AND PHP validation for full points. HTML5 validation when no others are utilized will do for 1 point.
Site functions without javascript		3 Turn off js -- what does it look like? Does the nav still work? Is there a fallback for stylings with no JS? (example: Slideshow, video)

## Page Two

Progressive Enhancement and evidence of testing in devices

-IE8  
-FF21+  
-Chrome27+  
-Safari 6+  
-Android Native Browser  
-iOS Safari  
Extra Files?

Milestones 1 - 3

Additional Functionality/Cool Stuff

total:

1 1 point maximum. Potential minus points: if designer did not test in class devices and it's plain by the way it displays in that device. Can the website's content be fully accessed by all devices?

1 on PC with XP

1 on PC

1 on PC

1 on Mac

1 nook - tablets - phone

1 iphone - ipad

0 Potential minus points. Has the student delivered more files than used? Has the student delivered more files than needed?

0 Potential minus points. Has the student delivered their most current versions of milestones 1 - 3?

0 potential bonus points

50 points
